

蘇黎

Dr. Su Li

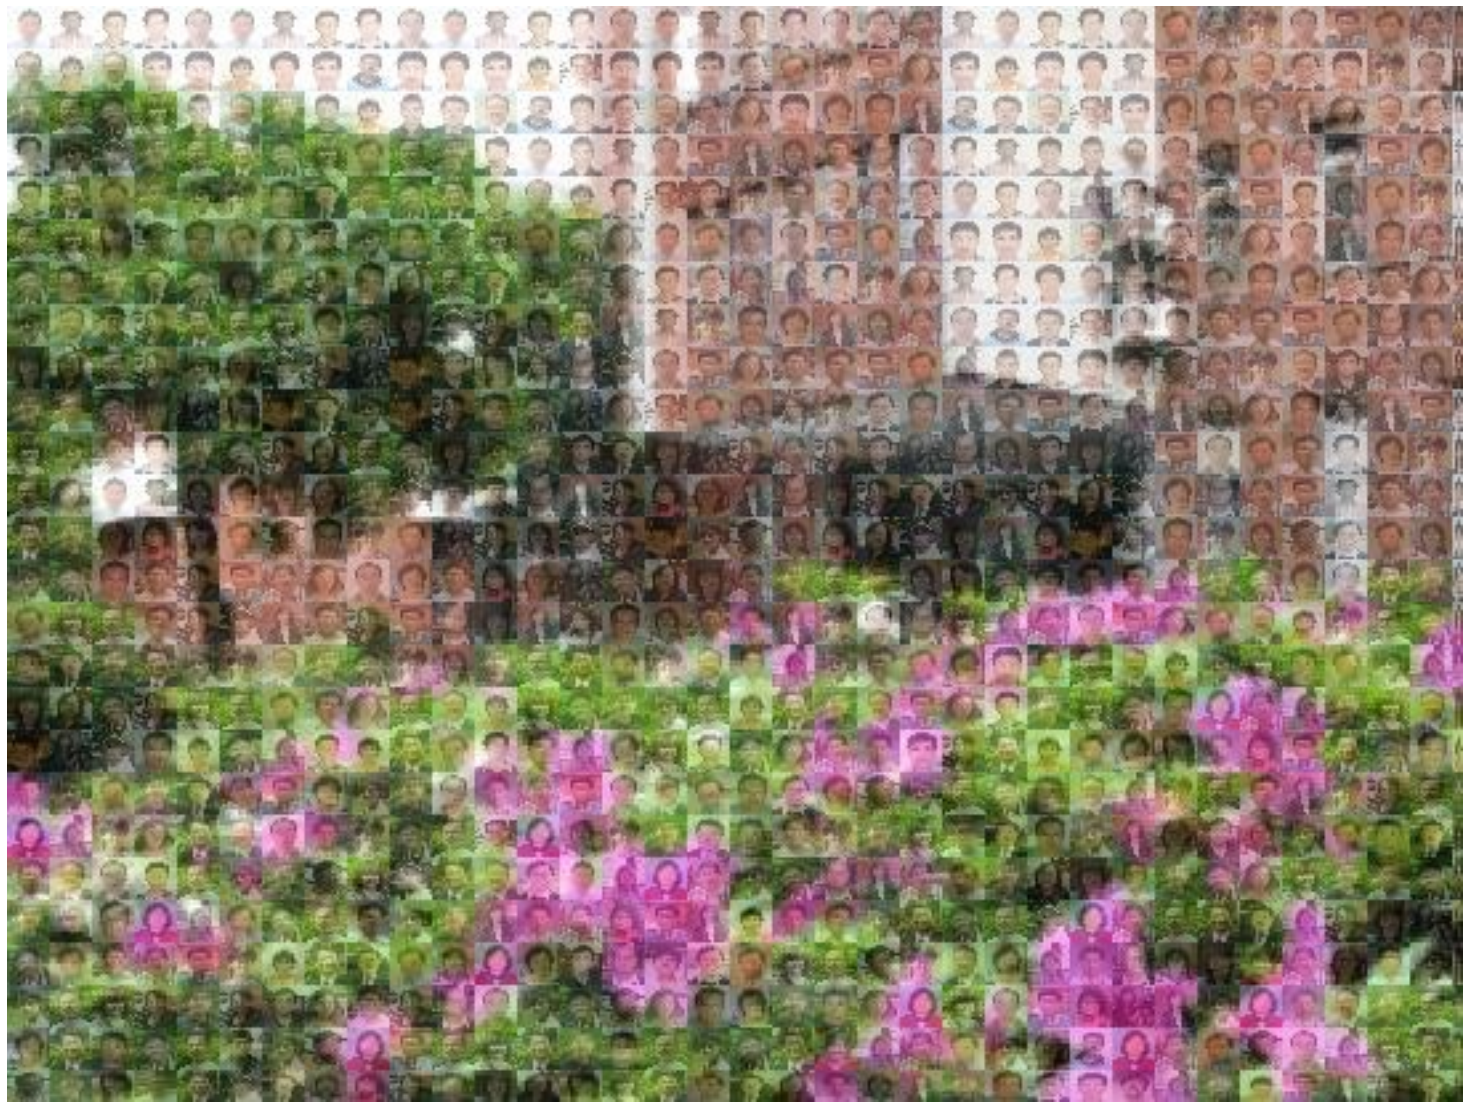

**Institute of
Information Science**

2019/10/2

Motto of the Institute of Information Science

件件工作 反映自我
凡經我手 必為佳作

*Every job is a self portrait of those who did it.
Autograph your work with quality.*

38 PIs ∙ 30 postdoc fellows
300+ research assistants, Ph.D. students, and master students

Missions of IIS

- To *conduct* and *promote* both **fundamental** and **applied** research in **information sciences** and **technologies**
 - Conduct **high-quality** and **high-impact** research
 - Focus on *mid-term to long-term* research agenda
 - Engage in *interdisciplinary* research
- To *cultivate and train* **advanced information research scientists and engineers** in Taiwan

Our research Labs

1. *Bioinformatics Lab*
2. *Computer System Lab*
3. *Data Management and Information Discovery*
4. *Multimedia Technologies Lab*
5. *Natural Language and Knowledge Processing Lab*
6. *Network System and Service Lab*
7. *Programming Languages and Formal methods Lab*
8. *Theory and Algorithms Lab*

Big AI Projects Sponsored by Ministry of Science and Technology (MOST)

- GAN-Inspired Deep Learning Techniques and Network Compression for Computer Vision Applications (270K US dollars/yr, 2018-2021)
- Merging heterogeneous deep models and learning retrieval features (330K US dollars/yr, 2018-2021)

Big AI Projects Sponsored by Ministry of Science and Technology (MOST)

- Deep Learning for Multimedia Information Processing and Applications (280K US dollars/yr, 2018-2021)
- Intelligent Conversational Robot for learning assistance with natural language understanding (460K US dollars/yr, 2018-2021)

Big AI Projects Sponsored by Ministry of Science and Technology (MOST)

- The Construction of A Concept-based Chinese Knowledge Base with Semantic Composition Capability (210K US dollars/yr, 2018-2021)
